

## Not for Profit Organisations & Associations

Many organisations working with children and families have told us that we need more early help for English-speaking families living and working locally. We know that the earlier that support is made available, the better the outcomes are for our families.

We want to partner with you to help and support English-speaking families more effectively!

How we can work together:

1. **Promote [www.thehub-geneva.org](http://www.thehub-geneva.org)** as a source of local English-speaking parenting help and support: Here we offer local information, allow parents to share their experiences and feelings and give them the freedom to acknowledge any difficulties they may experience.
2. **Endorse HUB@Home** – our 1:1 service which matches families to a trained volunteer who can offer weekly 1:1 support over a sustained period. This is particularly helpful for new parents who are struggling to cope with the demands of parenthood, a new baby and or trying to access local services.
3. **Make a Donation to The HUB** – Consider if you can:
  - Make us your Charity of the Year
  - Sponsor our volunteer training programme or website
  - Encourage staff to fundraise for us
  - Promote our volunteering opportunities to your staff, or even offer them time away from work to volunteer for us.
4. **Advocacy for International Family Voice:** A significant proportion of the population in the Geneva canton are international families. Through our work, we are always learning about the specific difficulties that our families are facing. As a result, we advocate to make improvements for International families to stay healthy and well and feel part of their local community. Please share your experiences and feedback on your community needs to help us to achieve this.
5. **Link us** with other local services, people or organisations that are working with or for parents and families. We can also promote our experience of the great work that you do too.
6. **Help us find new volunteers to expand The HUB family!** Perhaps your staff or well-established families you work would like to share their time, experience and understanding? Together we can help families feel they belong within their local community.

The HUB is here to work with you! Contact [info@thehub-geneva.org](mailto:info@thehub-geneva.org) for information.
